

# CABINETMAKING

Cabinetmakers more than simply design, build, and repair cabinets. They also work with a variety of structures and all types of furniture. It involves working with many structures such as doors, windows and window frames, and all types of furniture. They follow blueprints and detailed specifications.

Accuracy is a must as they regularly need to fit small parts together for a successful cabinetry installation.

# MATCHING ACTIVITY

To be successful in their trade, cabinetmakers must have good hand-eye coordination!

This game will exercise your brain's ability to coordinate your hands and eyes at the same time.

There are 2 pages for this activity. With safety scissors, cut the different shapes on the next page. Match each shape then with craft glue, stick them on top of the correct shape.

**Pentagon**

**Heart**

**Triangle**

**Octagon**

**Circle**

**Hexagon**

**Star**

**Square**
