

BUILD YOUR OWN TUK

In six easy steps

Animation: Claymation

Claymation is a style of animation where artists take many still photos of clay figurines and combine them together to create a film.

In the following activity we will learn the steps to create SCNL mascot Tuk out of clay/playdough!
Using this model you can create your own animation!

STEP ONE:
Collect your materials. Clay, playdough, or anything along these lines will work!

STEP TWO:
Form Tuk's basic body parts. This includes their head, body, and feet!

STEP THREE:
Put the basics of Tuk's body together.

STEP FOUR:
Start creating the more complex features on Tuk's body. This includes wings and beak.

STEP FIVE:

Add these features along with white for the head and stomach to form your Tuk.

STEP SIX:

Add some eyes and ta-da! Your Tuk is complete!

Feel free to experiment with different sizes and colours when building your model. Have fun with your Tuk and be creative. You can even add some cool accesories!

Thanks for building with us!

Feel free to share your creations with us on social media or message them to us directly! We would love to see them!
